PROFILE

I am currently enrolled as a computer engineering student at Kathmandu University. Over the years, I have completed multiple projects using a variety of programming languages, frameworks, and design tools. As a member of the Microsoft Learn Student Ambassadors program, I actively share my knowledge with other students and mentors. My experience includes UI/UX design, mobile development, web development, and effective teamwork. I am eager to apply my skills and creativity to solve real-world problems and make meaningful contributions to the tech community.
